

Starting Neighborhood Fundraisers

The efforts of the Capital Area Food Bank would not be possible without the generous support of the community. Our donors enable us to alleviate hunger in the region by delivering millions of meals worth of food to our partner agencies, and by offering a comprehensive array of programs and classes. However, the job is not done yet. There are still thousands of individuals suffering from hunger throughout the region, and you can help us close that meal gap by helping raise much needed funds in your neighborhood.

Get started by creating a neighborhood fundraising team!

1. Start by visiting the Capital Area Food Bank [Razoo](#) page and create your team!
2. Log in to your Razoo account or create a new one
3. Once you register, you will be able to create your own team name and page. You can upload your company's logo, a team picture, or any image that represents your group.
4. Start raising funds! As the team captain, you'll be the one to direct donations to your team page. You can do this by clicking on Share near the bottom right of your page. You can also find the link to your fundraiser at the Share tab.

You're now well on your way to raising much needed funds for the Capital Area Food Bank! If you have questions about your fundraiser, please contact Chamene Howard at choward@capitalareafoodbank.org.
